Quarterly Report:

Burgess Chambers, BCA, gave the Investment Summary Report:

Winter Park Firefighters Pension Plan Total Fund Investment Summary December 31, 2024

- For the quarter, the Plan was down \$98K or -0.1% (-0.1% net) – achieving the strategic model (-0.1%) and ranked in the **top 12th percentile**. The top performing asset categories were: Large Cap Growth (+7.1%, **top 17th**), Convertibles (+2.6%), and Large Cap Core (+2.4%, **top 45th**). Private real estate mark-downs appear to have ended.
- For the one-year period, the Plan earned \$8.5 million or +12.7% (+12.4% net), similar to the strategic model (+12.9%) and ranked in the **top 13th percentile**. The top three performing asset categories were: Large Cap Growth (+33.1%, **top 27th**), Large Cap Core (+25.1%, **top 42nd**), and Mid Cap Growth (+15.9%, **top 39th**).

- For the three-year period, the Plan earned \$4.1 million, averaging +2.4% (+2.1% net) per year.
- For the five-year period, the Plan earned \$21.4 million, averaging +6.6% (+6.3% net) per year.
- Beginning in January 2023, capital calls were received to fund the Ironsides Opportunities Fund II (private credit). Partial payments totaling \$1.1 million have been paid through January 2025, while **\$1.9 million** of the original **\$3 million commitment remains to be called.**
- In November 2022, a **\$500K redemption** was requested from the American Core Reality Fund and remains active. Payments totaling \$239K have been received through January 2025. A balance of \$261K remains. The DRIP has been reestablished and the 4Q24 distribution was reinvested.
- In November 2022, a **\$500K redemption** was requested from the Barings Reality Fund and remains active. Payments totaling \$384K have been received from Barings through January 2025. A balance of \$116K remains. The DRIP has been reestablished and the 4Q24 distribution was reinvested.
- In October 2024, \$281K was raised from the Fidelity 500 Index and wired to the Ironsides Opportunities Fund to satisfy a capital call.
- Westwood's large-cap value product's ten-year results were ahead of the benchmark (+9.6% vs. +8.5%). However, trailing performance over the past 12 months has pulled back annualized excess returns for the three and five-year periods. These relative trailing results are expected to improve, given that current higher interest rates should favor the portfolio's emphasis on high quality balance sheet companies.
- SSI's convertible bond product was ahead of the benchmark for the quarter (+2.8% vs. +2.7%, **top 20th**). The product averaged +8.5% per year for the last five years versus +10.3% per year for the benchmark and ranked in the **top 28th percentile**. The Plan uses a convertible bond index product which has provided better complementary performance.
- Cohen & Steer's infrastructure performance trailed its target for the quarter, but has beaten its benchmark for the one, three, and five-year periods.
- Euro-Pacific beat the benchmark for the quarter (-6.9% vs. -8.1%), and ten-year results were ahead (+6.2% vs. +5.7%).
- The Ironsides private credit product beat its benchmark for the 12-month period (+14.0% vs. +8.0%). Distributions totaling \$596,154 have been received through December 2024.
- ARA American Realty's private real estate's results were similar to the benchmark for the quarter (+1.0% vs. +1.2%), the second consecutive positive quarter. This suggests that the severe mark down cycle has ended.
- Barings Core Property real estate results were ahead of the benchmark for the quarter (+1.4% vs. +1.2%), following two previous positive quarters. This suggests that the severe mark down cycle has ended.
- TerraCap V performance appears to have stabilized, following large mark-downs in 2023. The original investment was \$2 million. The performance for the quarter suggests the mark down cycle has ended. Distributions totaling \$204,408 have been received through December 2024.

Westwood Holdings Group

Westwood reported on their LargeCap Value strategy which invests at the intersection of quality and value. We think the headwinds we have been facing with high beta, lower quality outperforming is at the turn, and we will be rewarded moving forward with the companies we hold that are at the intersection of high quality and value. We expect to see performance and peer rankings improve moving forward.

The environment since COVID has rewarded with lower quality stocks and we expect this to shift. We are happy with our portfolio positioning as we move forward in 2025 and expect to see the portfolio perform in terms of downside protection and overall returns as we expect to see market volatility and a brooding of returns outside of the Mag 7. We have already seen this occurring since 4Q24. While the last 12-18 months have been a headwind for our style, and this has affected 3 and 5 year performance, the longer term periods and since inception show strong absolute and relative outperformance.

A motion was made by Lt. Stuart Merrick and seconded by Lt. John Bonnell to stop all redemptions on ARA American Core and Barrings Core Property Fund. *All were in favor.*

A motion was made by Lt Stuart Merrick and seconded by Tony Gray to commit \$5 million to Ironside 2 which is scheduled to open May 1, 2025. *All were in favor.*

A new IPS will be presented at the May 2025 general meeting.

Attorney Report:

Pedro Herrera, Sugarman, Susskind, Braswell & Herrera, P.A., gave the Attorney Report:

An update on the Social Security Fairness Act. It has been repelled. Just for our information 1099R-Disability is tax free.

Administrative Report:

Bryan Templeton, Assistant Pension Administrator, gave the Administrative Report:

A motion was made by Tony Gray and seconded by Mike Baldwin to approve the Detailed Accounting Report for the Administrative Expenses for 10-1-2023 to 9-30-2024. *All were in favor.*

How Tariffs May Start a New American Industrialization
April 2025

The U.S. has embraced tariffs as a tool to either protect domestic industries from foreign competition or raise revenue, going as far back as the 1789 Tariff Act. Following the Morrill Tariff in 1861 to fund the Civil War, there were global trade wars. In 1922 and 1930, import tariffs became severe enough to foster trading nations to retaliate with their own, which some have argued worsened the Great Depression. By 1934, under the Reciprocal Trade Agreements Act, the U.S. began reducing tariffs with major trading nations to promote global economic activity. Following the end of World War II, more agreements went forward to promote peaceful world economic growth. This trend continued with the Kennedy Round (1960) and the Tokyo Round (1970). To promote more trade between Canada, Mexico, and the U.S. the North American Free Trade Agreement (NAFTA), negotiated by President George H.W. Bush, was signed by President Bill Clinton (1994). China became a member of the World Trade Organization in 2001, marking the beginning of their rise to become the world's second largest economy, ahead of Germany and Japan. As a result, world trade and economic expansion has grown since the end of World War II, along with ever increasing industrial and manufacturing investment outside of the U.S.

The wealth of the U.S. has driven trade imbalances with Europe and Asia. Americans are the largest global consumers per capita of global manufacturing (United Nations). This imbalance has only expanded since the 1960s through expanding national and consumer debt. Meanwhile, investments in U.S. manufacturing infrastructure have declined.

With a national debt approaching \$40 trillion, the U.S. Treasury needs cash. Instead of raising taxes, tariffs are seemingly a quick fix. In addition, the U.S. had significant trade deficit imbalances of \$918 billion in 2024, with goods representing \$1.2 trillion and the difference being a services surplus (WSJ). The top five trading countries with a surplus in their favor are China, Mexico, Vietnam, Japan, and Canada (WSJ).

The U.S. has negotiated trading arrangements with many countries that appear outdated, as the U.S. attempts to pivot away from economic globalization. This changed on April 2 when President Trump announced 50% reciprocal import tariffs with few exceptions. Under the United States-Mexico-Canada Agreement (USMCA) which replaced NAFTA in July 2020, the Trump administration secured more automobile parts manufacturing in the U.S. and higher Mexican worker wages. Canada eased restrictions on U.S. food imports. With the exception of the 25% tariff on autos and metals, most of Mexico and Canada's exports to the U.S. are already covered under USMCA.

How Tariffs May Start a New American Industrialization
April 2025**

Tariffs have been a significant source of U.S. Government funding infrastructure. For example, tariffs revenue funded land grants and the building of the Transcontinental Railroad, completed following the Civil War in 1869. Reciprocal tariffs could be a pathway to encourage countries to rebuild U.S. manufacturing infrastructure. The administration wants the windfall of planned tariffs to jump start this process. Numerous companies have announced large investments being planned in the U.S. in response to the threat of tariffs. Hyundai is planning a \$21 billion investment in the U.S., which includes a \$5.8 billion steel plant in Louisiana, Taiwan Semiconductor announced a \$100 billion expansion in Arizona. Johnson & Johnson plans to spend \$55 billion that includes a \$2 billion facility in North Carolina, and Siemens AG plans to spend \$10 billion for AI manufacturing.

A de-coupling of America's commitment to globalization is underway, the purpose of which is to pivot industrial manufacturing capital back to the U.S. to levels not witnessed since the 1950s-1970s.

Total Fund
Investment Summary
March 31, 2025

- For the quarter, the Plan was down \$1.6 million or -2.1% (-2.1% net) – behind the strategic model (-0.9%). The difference was due in large part to the under-weight to private credit and international equity performance. Westwood’s large-cap-value approach performed better than the other domestic equity sectors by a wide margin. The top performing asset categories were: Cohen & Steer’s infrastructure (+5.2%), Fixed Income (+2.8%, **top 34th**), and International (+2.7%). Both private real estate managers reported positive returns, further evidence that a bottom set in last summer.
- For the fiscal year-to-date period, the Plan was down \$1.8 million or -2.3% (-2.5% net), falling short of the strategic model (-1.1%). The top three performing asset categories were: Private Credit (+5.4%), Private Real Estate (+2.5%), and Cash (+2.0%).
- For the one-year period, the Plan earned \$2.7 million or +4.0% (+3.7% net), trailing the strategic model (+6.0%). The top three performing asset categories were: Infrastructure (+14.8%), Private Credit (+12.8%), and Large Cap Core (+8.3%, **top 18th**).
- For the five-year period, the Plan earned \$27.2 million, averaging +9.1% (+8.8% net) per year, behind the +10.1% strategic model return.
- Beginning in January 2023, capital calls totaling \$ 1 million were made to the Ironsides (private credit) through March 2025, while **\$2.0 million** of the original **\$3 million commitment remains to be called**.
- In November 2022, a **\$500K redemption** was requested from the American Core Reality Fund. Payments totaling \$239K have been received through March 2025. The balance of \$261K has been removed from the withdrawal queue, the DRIP has also been reestablished.
- In November 2022, a **\$500K redemption** was requested from the Barings Reality Fund. Payments totaling \$425K have been received from Barings through March 2025. The balance of \$75K has been removed from the withdrawal queue, the DRIP has also been reestablished.

Manager Commentary
March 31, 2025**

- Westwood's large-cap value product's ten-year results were ahead of the benchmark (+9.4% vs. +8.8%). However, trailing performance over the past 12 months has pulled back annualized excess returns for the three and five-year periods. These relative trailing results are expected to improve, given that current higher interest rates should favor the portfolio's emphasis on high quality balance sheet companies. Recent performance was well ahead of tech-loaded large-cap growth, as expected.
- SSI's convertible bond product was behind the benchmark for the quarter (-3.0% vs. -2.1%). The product averaged +11.1% per year for the last five years versus +13.1% per year for the benchmark, but ranked in the **top 29th percentile**. The Plan uses a convertible bond index product which has provided better complementary performance.
- Cohen & Steer's infrastructure performance has beaten its benchmark for the quarter, one, three, and five-year periods.
- Euro-Pacific fell trailed the benchmark for the quarter (+2.7% vs. +7.0%), but ten-year results similar to the benchmark (+5.8% vs. +5.9%). International equity performance will remain volatile. Interest rates, the value of the U.S. dollar and trade policy will continue adding uncertainty to this asset class.
- The Ironsides private credit product beat its benchmark for the 12-month period (+12.8% vs. +7.5%). Distributions totaling \$715,727 have been received through March 2025. A higher allocation to this asset class is needed to further enhance total Plan performance.
- ARA American Realty's private real estate's results achieved the benchmark for the quarter (+1.1% vs. +1.1%), the third consecutive positive quarter. This suggests that the mark down cycle has ended.
- Barings Core Property real estate results were ahead of the benchmark for the quarter (+1.5% vs. +1.1%), following three previous positive quarters.
- TerraCap V performance appears to have stabilized, following mark-downs in 2023 and 2024. The original investment was \$2 million. Distributions totaling \$204,408 have been received through March 2025.

Glossary
March 31, 2025**

- ACCRUED INTEREST- Bond interest earned since the last interest payment, but not yet received.
- ALPHA- A linear regressive constant that measures expected return independent of Beta.
- ASSET ALLOCATION- The division of portfolio asset classes in order to achieve an expected investment objective.
- BALANCED UNIVERSES - Public Funds, Endowments & Foundations, Corporate peer groups, and PSN peer groups.
- BETA- A measure of portfolio sensitivity (volatility) in relation to the market, based upon past experience.
- BOND DURATION- A measure of portfolio sensitivity to interest rate risk.
- COMMINGLED FUND- An investment fund which is similar to a mutual fund in that investors are permitted to purchase and redeem units that represent ownership in a pool of securities.
- CONVERTIBLE BONDS - Hybrid securities' that offer equity returns during rising equity markets and improved down-market protection.
- CORE- An equal weighting in both growth and value stocks.
- CORRELATION COEFFICIENT- A measure of how two assets move together. The measure is bounded by +1 and -1; +1 means that the two assets move together positively, while a measure of -1 means that the assets are perfectly negatively correlated.
- GROWTH MANAGER- Generally invests in companies that have either experienced above-average growth rates and/or are expected to experience above-average growth rates in the future. Growth portfolios tend to have high price/earnings ratios and generally pay little to no dividends.
- INDEXES- Indexes are used as "independent representations of markets" (e.g., S&P 500).
- INFORMATION RATIO- Annualized excess return above the benchmark relative to the annualized tracking error.
- LARGE CAP- Generally, the term refers to a company that has a market capitalization that exceeds \$10 billion.
- MANAGER UNIVERSE- A collection of quarterly investment returns from various investment management firms that may be subdivided by style (e.g. growth, value, core).
- MID CAP- Generally, the term refers to a company that has a market capitalization between \$2 and \$10 billion.
- NCREIF - A quarterly time series composite total rate of return measure of investment performance of a large pool of individual commercial real estate properties acquired in the private market for investment purposes only.
- NCREIF ODCE - Open End Diversified Core Equity index which consists of historical and current returns from 26 open-end commingled funds pursuing core strategy. This index is capitalization weighted, time weighted and gross of fees.
- NET- Investment return accounts only for manager fees.
- PROTECTING FLORIDA INVESTMENT ACT (PFIA) - SBA publishes a list of prohibited investments (scrutinized companies).
- RATE OF RETURN- The percentage change in the value of an investment in a portfolio over a specified time period, excluding contributions.
- RISK MEASURES- Measures of the investment risk level, including beta, credit, duration, standard deviation, and others that are based on current and historical data.
- R-SQUARED- Measures how closely portfolio returns and those of the market are correlated, or how much variation in the portfolio returns may be explained by the market. An R2 of 40 means that 40% of the variation in a fund's price changes could be attributed to changes in the market index over the time period.

Glossary
March 31, 2025**

- SHARPE RATIO- The ratio of the rate of return earned above the risk-free rate to the standard deviation of the portfolio. It measures the number of units of return per unit of risk.
- SMALL CAP- Generally refers to a company with a market capitalization \$300 million to \$2 billion.
- STANDARD DEVIATION- Measure of the variability (dispersion) of historical returns around the mean. It measures how much exposure to volatility was experienced by the implementation of an investment strategy.
- SYSTEMATIC RISK- Measured by beta, it is the risk that cannot be diversified away (market risk).
- TIME WEIGHTED (TW) RETURN - A measure of the investments versus the investor. When there are no flows the TW & DOLLAR weighted (DW) returns are the same and vice versa.
- TRACKING ERROR- A measure of how closely a manager's performance tracks an index; it is the annualized standard deviation of the differences between the quarterly returns for the manager and the benchmark.
- TREYNOR RATIO- A measure of reward per unit of risk. (excess return divided by beta).
- UP AND DOWN-MARKET CAPTURE RATIO- Ratio that illustrates how a manager performed relative to the market during rising and declining market periods.
- VALUE MANAGER- Generally invests in companies that have low price-to-earnings and price-to-book ratios and/or above-average dividend yields.

Advisory services are offered through or by Burgess Chambers and Associates, Inc., a registered SEC investment advisor.

Performance Reporting:

1. Changes in portfolio valuations due to capital gains or losses, dividends, interest, income and management fees are included in the calculation of returns. All calculations are made in accordance with generally accepted industry standards.
2. BCA complies with the Association for Investment Management and Research Performance Presentation Standards (AIMR-PPS). Returns are time-weighted rates of return (TWR).
3. Transaction costs, such as commissions, are included in the purchase cost or deducted from the proceeds or sale of a security. Differences in transaction costs may affect comparisons.
4. Individual client returns may vary due to a variety of factors, including differences in investment objectives, asset allocating and timing of investment decisions.
5. Performance reports are generated from information supplied by the client, custodian, and/or investment managers. BCA relies upon the accuracy of this data when preparing reports.
6. The market indexes do not include transaction costs, and an investment in a product similar to the index would have lower performance dependent upon costs, fees, dividend reinvestments, and timing. Benchmarks and indexes are for comparison purposes only, and there is no assurance or guarantee that such performance will be achieved.
7. Performance information prepared by third party sources may differ from that shown by BCA. These differences may be due to different methods of analysis, different time periods being evaluated, different pricing sources for securities, treatment of accrued income, treatment of cash, and different accounting procedures.
8. Certain valuations, such as alternative assets, ETF, and mutual funds, are prepared based on information from third party sources, the accuracy of such information cannot be guaranteed by BCA. Such data may include estimates and maybe subject to revision.
9. BCA relies on third party vendors to supply tax cost and market values, In the event that cost values are not available, market values may be used as a substitute.
10. BCA has not reviewed the risks of individual security holdings.
11. BCA investment reports are not indicative of future results.
12. Performance rankings are time sensitive and subject to change.
13. Mutual Fund (MF), Collective Investment Trusts (CIT) and Exchange Traded Funds (ETF) are ranked in net of fee universes.
14. Separately Managed Account (SMA) and Commingled Fund (CF) returns are ranked in gross of fees universes.
15. Composite returns are ranked in universes that encompass both gross and net of fee returns.
16. Total Fund returns are ranked in a gross of fee universe.
17. Private investments may include performance fees in addition to a management fee. For the purpose of BCA's calculations, net returns take in consideration both performance and management fees, but gross returns include management fees only.
