1. Call to Order

Meeting was called to order by Chairperson, Leah Bonich at 5:32pm

2. Consent Agenda

- a. Approve the minutes of May 21, 2025

Motion made by Anne Mooney, seconded by Lawrence Lyman, to approve the May 21, 2025 minutes. Motion passes 4-0.

3. Public Comments (for items not on the agenda): Three minutes allowed for each speaker

Gigi Papa, 1440 Hibiscus Ave, requested that all board meetings begin at 5:30 to allow the public and residents the ability to attend.

She would also like to ensure none of the board members are related to any type of campaign unless they are sponsored by a resident/board member.

Another point was the lack of communication pertaining to Parks & Recreation events. An example was this evening's event at Seven Oaks, which was only advertised as of yesterday, June 17, 2025.

Jason Seeley, Parks & Recreation Director, addressed her concerns pertaining to the events. Staff communicated the event through the Parks & Recreation page, advertised on the city website as of June 17, 2025, and a press release was also created and released on June 6, 2025.

Leah Bonich, PRAB chairperson, stated it is not showing up on the city website's event calendar. Mr. Seeley agreed and will point it out to the communications department.

The board inquired how the participants were selected for the food truck event. John Clarke, Recreation & Family Service Manager, stated staff used the approved food truck

list to reach out for interest and availability. The goal is to engage businesses surrounding the park to bring ore awareness to both the park and the businesses. Mr. Seeley informed the board there are a few additional events slated for the park as well.

4. Action Items

a. Nominations and Election of Chair and Vice-Chair

Motion made by Ginny Enstad, seconded by Anne Mooney, to nominate and elect Thomas Sims for Chairperson and Leah Bonich for Vice Chairperson.

Motion fails 2-3 with Lawrence Lyman, Leah Bonich, and Ellen Wolfson opposing.

Motion made by Lawrence Lyman, seconded by Ginny Enstad, to nominate and elect Leah Bonich as Chairperson and Thomas Sims as Vice Chairperson.

Motion passes 5-0.

5. Non-Action Items

a. Meeting Frequency and Structure

Mr. Seeley discussed the meeting frequency and structure with the board and recommended not scheduling meetings for March, May, September, and December. He suggested the board focus more on what their interests and goals are for the year to ensure the meetings are more productive and efficient. He also included the items that must be discussed, such as the strategic action plan, fee schedule and budget, etc. Mr. Lyman is in agreement with the recommendation and suggested not having a meeting in July due to summer travel plans, keeping the September meeting instead. Mrs. Bonich feels four meetings is too many to skip but would be in favor of three - March, December, and perhaps July. Mr. Seeley stressed the importance of structuring the meetings in order to be more productive. The board members need to decide what their goals are and what items they want to discuss. The board is in agreement to remove the December and July meetings beginning with the December 2025 meeting. Mrs. Wolfson inquired if it would be possible to hold a less formal setting for a discussion regarding the board members' individual goals, Mrs. Bonich suggested September for a work session.

6. Staff Updates

a. Strategic Action Items Update

Mr. Seeley provided the board with project updates, which included CAPRA accreditation, with the next one being due in 2027. The master plan solicitation will begin next month with Cathleen Daus and Mike McCosker being on the selection committee. A lot of the items are part of the CAPRA and included in the master plan such as an upgraded AV system at the community center, geothermal heating for the community center pool, and Winter Park 9 additional rain shelter on Hole 4. There is a

new mini-park on Gipson Green where a resident has donated a portion of his lot to the city. Lastly, the sculpture statue was installed at Unity Corner this morning and July 12, 2025, will be the dedication date for Unity Corner.

Mrs. Daus added that July is Parks & Recreation month and displayed a calendar of events for the board to reference. Mrs. Bonich would like staff to address having all the Parks & Recreation events listed on the City's calendar page through the Communications department.

Mr. Lyman complimented the staff on the work they do but stated the Dinner on the Avenue event was more congested and compact per the feedback he had received from attendees. Mrs. Daus believes it could have been due to the new parameters set by the Police and Fire Departments for emergency clearance.

7. Board Comments

Mrs. Bonich inquired if staff updates are necessary at every meeting or if it can be done less often.

8. Upcoming Agenda Items

The board would like to discuss their individual goals as a group at the next meeting. Mr. Seeley recommended each member supply him with their goals before the end of July and the discussion will take place at the August meeting.

9. Adjournment

The meeting adjourned at 6:40 pm.

MLK Playground - joint discussion with CRAAB

motion | recommendation

Staff is requesting a joint discussion between CRA and the Parks & Recreation Advisory Boards regarding the final design of the MLK playground. The design is the result of a multi-year process that involved public input throughout, to ensure the best investment of CRA funds dedicated to bringing new life to the Community Playground for generations to come, while ensuring the legacy of the existing playground generations of Winter Park families held dear.

background

After decades of wear and tear, the playground is in need of enhancements, including improvements to mitigate approximately 40 years of weatherization, bringing the playground into compliance with today's safety standards, and providing a proactive approach to reach existing and future generations.

Beginning in 2022, several public meetings were held to help identify the major points of improvement. Of note, consultants and staff created a robust list of considerations, wants, needs, and priorities while simultaneously generating a foundation of the playground's existing legacy.

The proposed update to the playground maintains the endearing qualities of the playground while also speaking to a myriad of public desires and visions for the new playground. The key elements focused on were improving accessibility, ensuring the safety of both the structures and play elements, maintaining the look and feel of the existing playground (castle theme, use of natural materials, etc), adding new elements that the community has strongly desired, such as a spray play area, and improving the overall continuity of existing playground within the park.

Throughout the process, several mediums were used to encourage public participation.

- Social media (Facebook, X (Twitter), Nextdoor) were utilized to engage and inform the public of the project.

- Multiple community forums that were composed of presentations by experts in the playground and playground construction industry, interactive round table discussions, and open forum question and answer sessions.
- Multiple public board meetings through both CRA and PRAB. Lastly, the City provided the public with a web page updated regularly, providing meeting recaps and presentations, as well as a dedicated email address to ask questions regarding the project in a more anonymous setting.

alternatives | other considerations

fiscal impact

As the contract accounts for costs already encumbered in the existing CRA budget, the purpose of the item is to suggest any other considerations that may be meaningful prior to implementation and approval to move forward with construction as designed.

WHERE WE
STARTED..

...AND WHERE WE ARE TODAY!

6D PROCESS

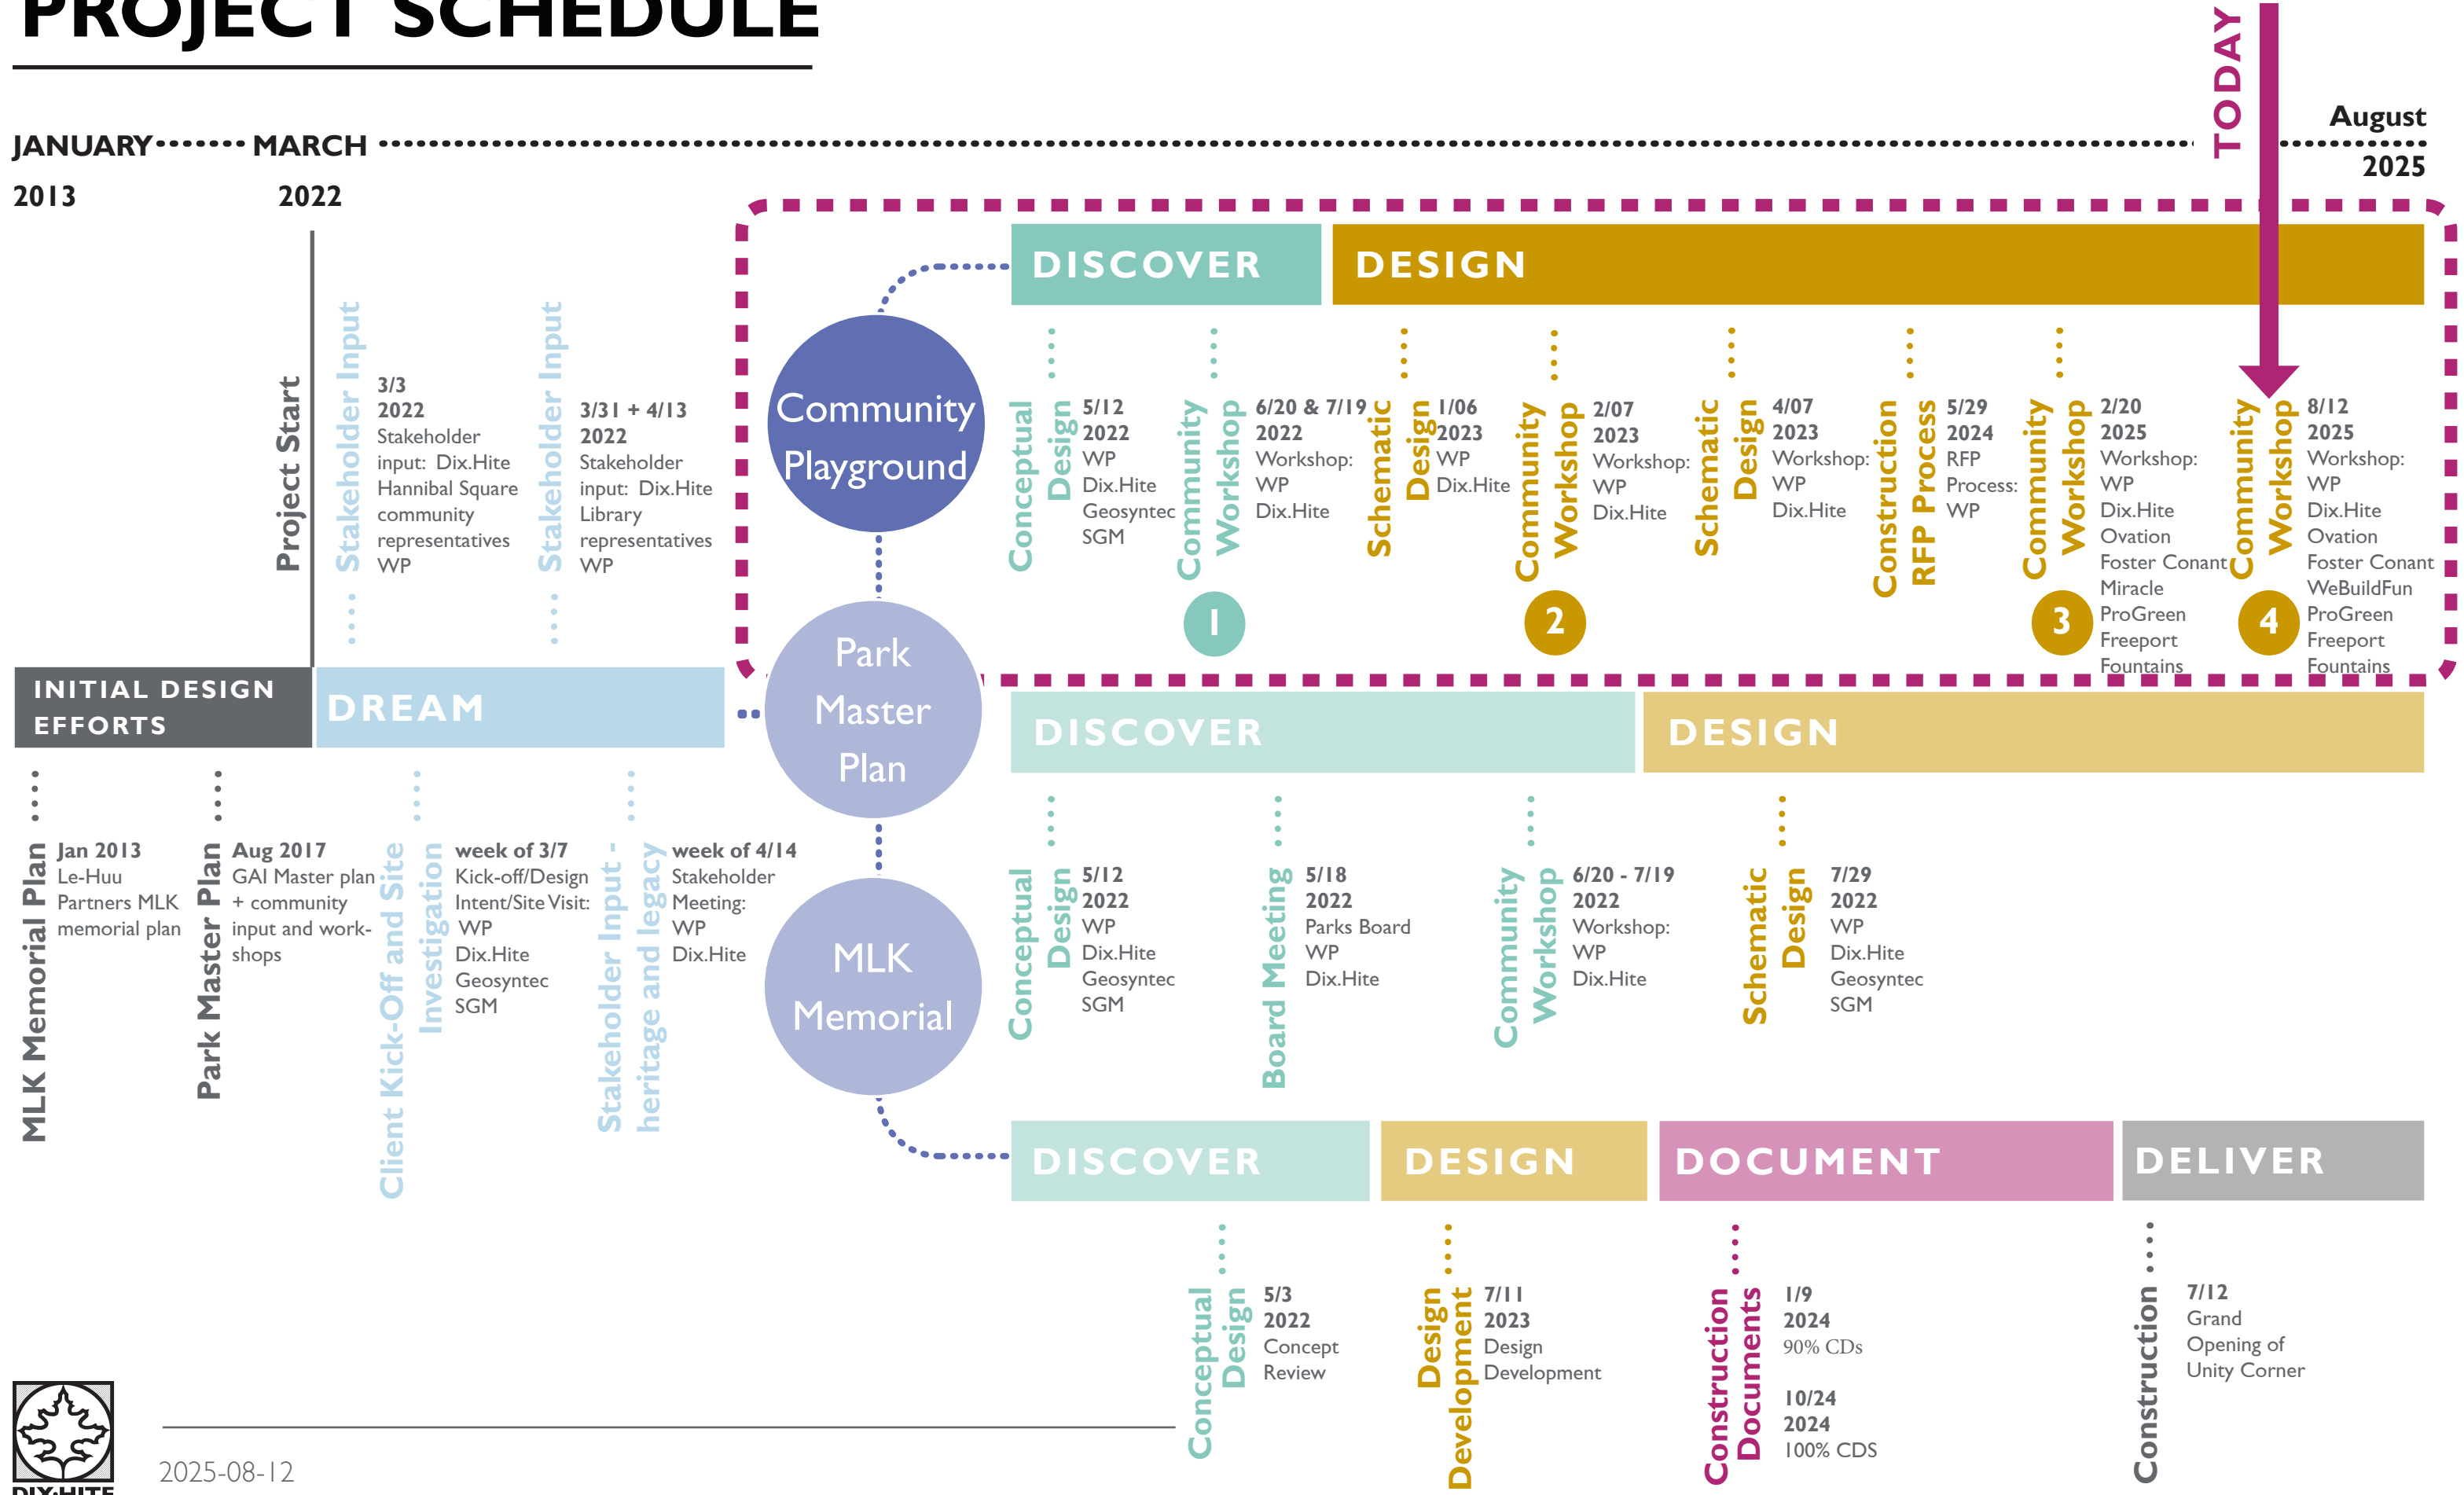

We're true believers in the power of the design process. To help clients meet their goals, we apply the "6D" approach: a transparent and scalable process that engages the entire design team in collectively identifying opportunities and constraints.

These steps provide a framework for project management, ensuring that outcome matches the intent and that the results fulfill the vision. As details of the project are uncovered, we adapt our approach to meet specific goals, deliverables and timeframes.

Everything comes back to the client's dream.

“WHAT WE HEARD”

TOP TAKE AWAYS

- Play:
 - Variety of equipment appealing to multiple ages
 - Naturalistic in material, aesthetic, form
 - Structure to be low maintenance
 - Multiple surfaces & textures
 - Safe
 - Simple
- Splash Pad:
 - Incorporate multiple depths
 - Mimic nature
- Inclusive / accessible
- Multi-generational
- Clear surveillance from multiple seating points
- Improve parking lighting
- Provide more color & interest among surrounding plant material

PLAY & SPLASH PAD

- Include composite material or alternative to wood
- Incorporate different materials & surfaces
- Keep elements of play connected
- Relate to nature & natural elements when possible
- Provide ample spaces to foster imagination & creativity
- Incorporate more colors
- Pay homage to original structure with a modern update
- Keep visibility of structures & tunnels clear
- Love vertical elements that allow for climbing
- Incorporate elements for multiple age groups & levels of play
- Provide ample seating around playground for parents
- Love rope swing options
- Density over spread is key for play structures
- Incorporate stepping & weaving motions
- Scale play equipment to accommodate popular features
- Include multiple bridge access points to castle structure
- Improve upon existing castle with additional viewing & clear areas
- Include a variety of difficulty levels on castle bridges
- Love swinging areas being located away from main castle structure
- Provide seating in direct view of playground elements
- Include shade over areas of water interaction
- Provide variety of water depth levels for varying levels of difficulty
- Be sure to include accessible water interaction opportunities
- Include safe water interactions for a variety of ages

QUESTIONS & CONCERNS

- No proposed areas for dogs - should there be?
 - Dog run & water fountains
- Keep existing dog bag stations
- Shade options need to be provided for all structures & amenities
- Reference other proposed and existing parks in the area for problems
- Provide enough trash receptacles to keep the park clean
- What type of fencing is used? How opaque should it be?
- Are there going to be auto-closing gates?
- Should a park attendant be hired to watch over the splash pad?
 - Summer months would be preferred to have a member on staff
- Observation from watchtower building or office
- Ensure accessibility coming from the Memorial corner
- Incorporate ample lighting around edges of play & parking areas
- Questionable visibility with the longer tunnels - shorten?
- Is exercise equipment going to be incorporated anywhere?
 - Integrated on site or nearby?
- Are there designated areas for stroller parking? Bike parking?
- Is there a way to prevent / discourage people from sleeping in tunnels?
- How can sound be incorporated into equipment or plant material?
- Can we provide sensory elements along a designated trail?
 - Can these tie into the trail leading to the library?

FEBRUARY 2023 INVENTORY AND ANALYSIS

The center pathways of the castle are a unique and a key part of the playground.

Some areas of the castle are in need of substantial maintenance for safety and stability.

Children enjoy the various entry and exit points on the castle.

Overall transitions to the playground and play structures are not accessible to all abilities.

The tower has lost purpose and connection after years of modifications.

Children enjoy the various heights. Opportunity to expand this play element on site.

Children enjoy hiding and gathering in the smaller space. Opportunity to integrate into the play story as a whole.

Existing benches are highly used and can be relocated along the playground for better visibility.

SITE INVENTORY + ANALYSIS

Children enjoy the spiral slide but it is not fully connected with the playground. Opportunity to better integrate the slide experience.

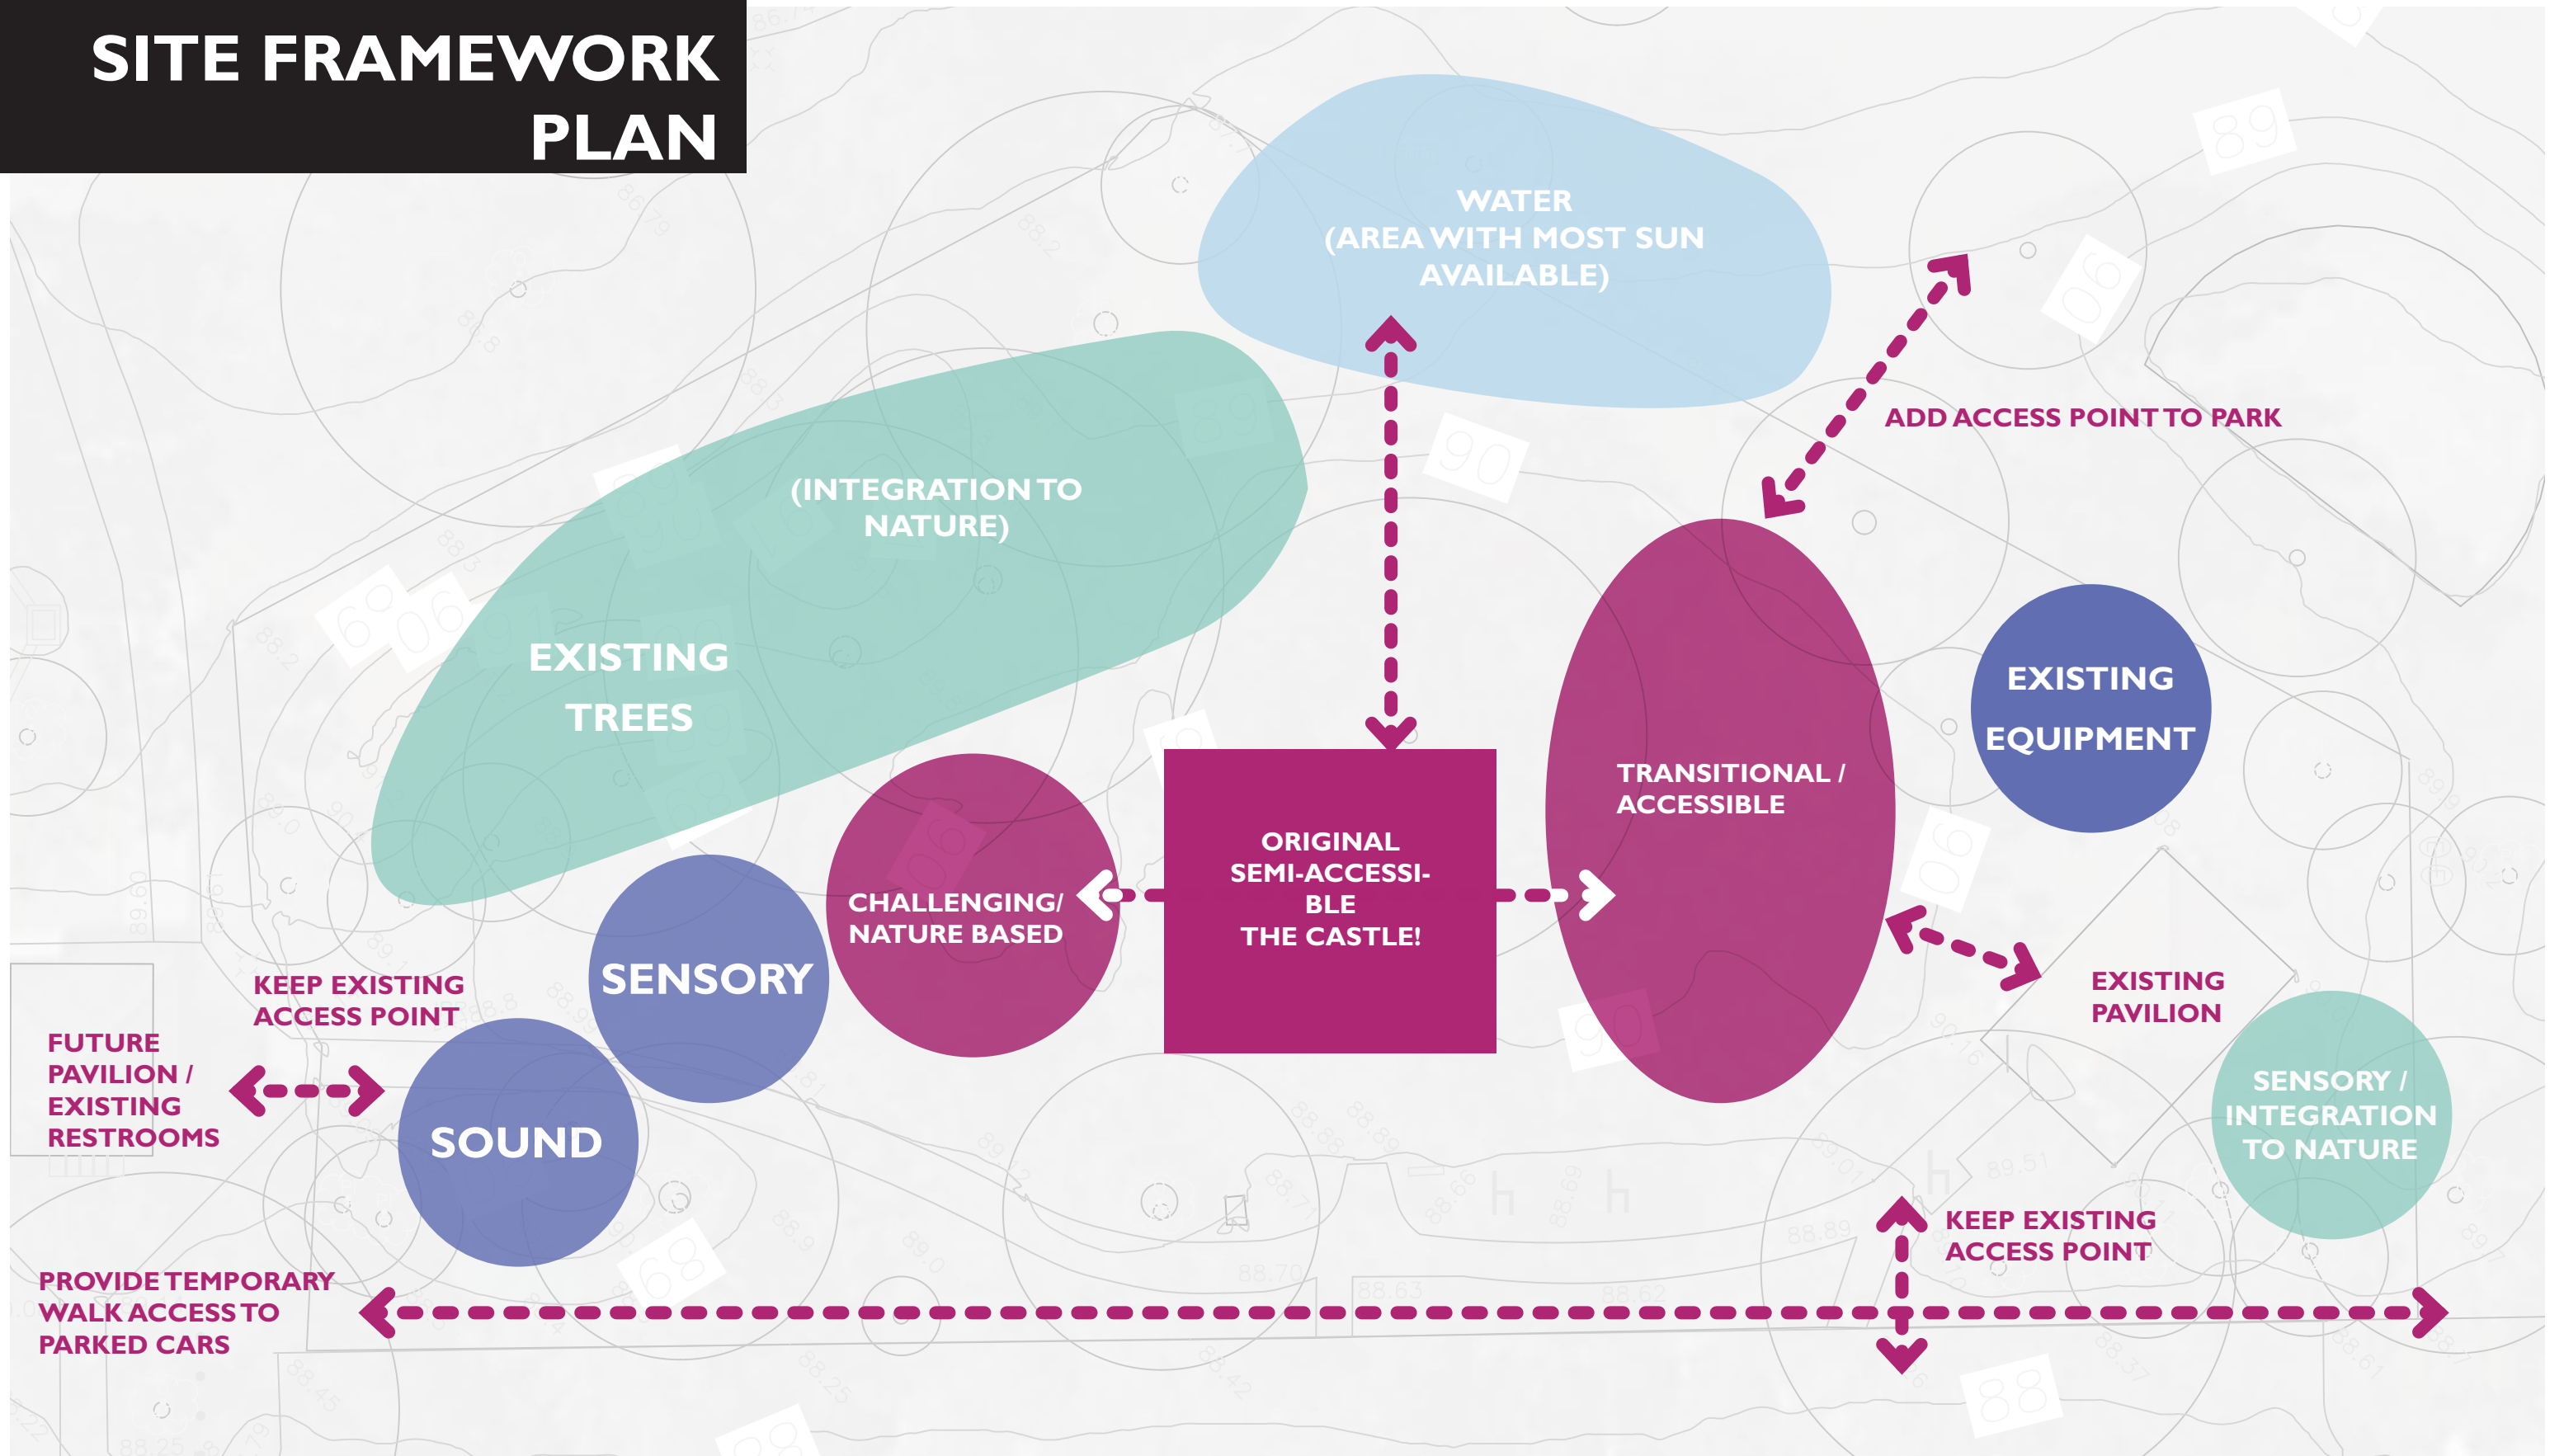

Access to and from the playground is not safe as one enters from the parking area. Playground lacks safe walks to reach parked cars.

Existing picnic tables throughout the playground are highly used. The shade from existing trees creates comfortable seating opportunities.
